

Abstract Topics

Abstract Submission is Closed!

[Abstract Submission Guidelines](#)

- Taxonomy
- Animal Models and Papillomaviruses
- Immunology
- Regulation of Gene Expression, Post-transcriptional Modification
- Transformation and Carcinogenesis
- Structural Biology
- Virus – Host Interactions
- Virus Life Cycle
- Genomics of HPV-Associated Disease
- Papillomavirus Vaccines: Basic Science aspects
- Beta and Gamma Cutaneous HPV Infection, Biology, and Natural History
- Microbiome

- Self-Sampling to support screening New Technologies for Cervical Screening
- HPV tests and Biomarkers for Early Detection and Management of Cervical Cancer and Related Precursors
- Diagnosis and Management of HPV-Related Anogenital Cancers Other Than Cervix: Penile, Vaginal, Vulvar and Urological Cancer and Related Precursors
- Biomarkers for Early Detection and Management of non-cervical anogenital disease
- Diagnosis and Management of Anal Cancer and Related Precursors: Screening, Diagnosis and Management
- Diagnosis and Management of HPV-Related Oropharyngeal & Head and Neck Cancer
- Diagnosis and Management of Genital and Cutaneous Warts
- Diagnosis and Management of Cutaneous Warts and Other

Skin Lesions

- Prophylactic Vaccines – Clinical Aspects
- Therapeutic Vaccines – Clinical Aspects
- Diagnosis and Management of HPV Disease in People Living with HIV and Other Forms of Immunocompromise
- Screening, Diagnosis and Treatment of Cervical Precancer in Low-Resource Settings
- Novel excisional/ablative treatments for HPV associated disease
- Novel Therapeutic Approaches to Treatment of HPV-Related Disease Including Antivirals
- Rapid assays for the detection of HPV-Related Disease
- Recurrent Respiratory Papillomatosis
- HPV NAAT Screening Quality Control/Assurance Guidelines
- Other Clinical Research

- Epidemiology: Natural History/Risk Factors (**female**) and/or (**male**)
- HPV among high risk/special populations
- Screening for HPV-Related Disease: Implementation, Evaluation and Impact
- Vaccination: Implementation, Evaluation and Impact
- Economics and Mathematical Modelling
- Cervical Cancer Elimination
- Head and Neck Cancers
- Vaccine Safety
- Impacts of COVID-19 Pandemic on HPV Vaccination Implementation & Public Health Aspects of HPV Screening
- Behavioral Science Aspects of New Technologies in Cervical Screening Including Dissemination/Communication Research
- Other Public Health, Epidemiology and Implementation Science Research
