[Click here](#)Storyboard is a term often used to show more of how everything comes together and make up of different phases of your support among our audience. Especially in these times where digital and in-person components are widely used leading up, throughout IPVC-2024 but also post conference. These components are often used as an individual support item, but with some forward planning, once can integrate these in which these support items are complimenting each other and bring the attendee along through your journey![Planning and TravellingDuring the ConferenceAfter the ConferenceClick here to see all the packages](#)

Delegates are in the **process of getting familiar** with the Conference, planning and gathering information through either the Conference Website or Social Media.

Most delegates will prepare their initial schedule. Even while travelling, messages on social media or through mailing, **will not go unnoticed.**

Be present while people are getting ready for IPVC 2024!

Delegates are now **ready to meet Industry on-site!** At this point, they must be **aware of your presence** as now it is a matter of **meet and greet.**

Personal contact and **putting out your incentives is key!**

Present and follow up on what you communicated earlier during the planning and travelling phase!

Take care and **see you soon!** Delegates should have the after care! They can now really process **their impressions of your presence** at IPVC 2024. This is the chance to get rated on what you offer, propose feedback in support of future plans!

Dare to ask them what they would like to see from you next!

Teaser Event page with 4 min video
